LET THERE BE LIGHT...

TEXLIGHT[®]

Glowing eye-catcher: embroidery and appliques with Texlight® set accents and draw attention magically.

LET THERE BE LIGHT...

LIGHT EFFECTS WITH TEXLIGHT®

Texlight® by TWD Fibres is the new yarn with which you can achieve previously unknown light effects: Texlight® glows in the dark!

Texlight® provides you with the possibility of refining your products with completely new characteristics and offering your customers new incentives to buy.

Texlight® is washable, non-toxic and easy to machine – the ideal effect yarn for the widest variety of applications!

SIMPLE CAUSE, BIG EFFECT

THIS IS HOW TEXLIGHT® WORKS

Texlight® is a polyester-based effect filament yarn, which is activated by daylight or artificial light and glows in the dark. Texlight® achieves a high light density and a long duration of luminescence.

The light pigment is permanently embedded in the fibre and does not wear. Charging can be repeated as often as you like without the effect diminishing.

Texlight® is available in white and selected colours. The light effect generates a soft, green colour.

Effect with a function: the key chain can be found immediately in the dark.

LET YOUR FANTASY RUN FREE!

APPLICATIONS AND POSSIBILITIES

Texlight® can be used for spotted accents and for area applications.

Texlight® offers you optimum possibilities to realize interesting and innovative effects in every conceivable area of application.

Use the unique properties of Texlight® to achieve effects in car upholstery, clothing, embroidery, home textiles, labels, ribbons and numerous other applications!

Besides being decorative, the glowing effect may also add numerous functional advantages to your product.

Texlight® opens up new ways to fit out your products with additional benefits. There is no limit to your fantasy!

Wonderfully changeable: Texlight® creates completely new possibilities for home textiles.

Set accents:
with Texlight, you
can show your logo
on labels and tags
in a favourable light.

VERSATILE, HIGH QUALITY

THE PROPERTIES OF THE PRODUCT

Texlight® is available as a friction-textured yarn for the manufacture of soft, bouffant materials with a natural fibre touch.

Texlight® is:

- luminescent
- bright round textured
- raw-white or dope-dyed
- twisted, optionally doubled

We offer Texlight® in the following yarn counts:

- dtex 76 with 18 filaments
- dtex 110 with 24 filaments
- dtex 550 with 120 filaments
